REC'D MASS MED BUR  
OCT 04 1993  
VIDEO SERVICES

Gentlemen:

Enclosed please find Viacom Cable's response to the Commission's Cable Rate Impact Survey. The information being provided is the best information that we have presently available given the limitations of our computer facilities during the transition period for implementation of new rates and a new rate structure and contains certain reasonable estimates and extrapolations.

Given the limitations of the response format, I would like to take this opportunity to explain some of the results contained in this filing. Overall, every cable television system operated by Viacom Cable will experience a decrease in the revenue it receives for the provision of regulated service with approximately 87.7% of customers overall, not just in the surveyed systems, receiving a decrease in their bills. For the Division, the impact of rate regulation on revenues is expected to be a \$30 to \$35 million decrease.

Furthermore, for those few customers experiencing a rate increase, that rate increase on average is \$0.67 (these increases resulted primarily from a change in rate structure, not necessarily from an increase in rate levels). And for the large portion of our customer base experiencing a decrease, the average decrease is (\$3.33).

The principle reasons for those increases experienced by a few customers can be summarized as follows:

- adding channels to regulated service levels, eg. in Napa and Pittsburg we activated additional channels as we completed scheduled rebuilds, adding significant value for customers at a small incremental increase in price for those customers who did see increases
- elimination of the Additional Outlet charge
- tier equalization/pricing neutrality across all regulated service levels has caused an increase in the rate for the Basic Service Tier
- equipment formerly contained in premium packages now included as part of regulated billings.

More specifically, the predominant reasons for any increase in a specific system are as follows:

- **Seattle, Washington**

Customers with increase	11.2%	Average Increase	\$0.23
Customers with decrease	88.8%	Average Decrease	(\$3.21)

- Elimination of Additional Outlet charges and reallocation of equipment charges from premium programming packages to regulated pricing levels

- **San Francisco, California**

Customers with increase	3.4%	Average Increase	\$0.57
Customers with decrease	96.6%	Average Decrease	(\$3.97)

- Addition of channels to regulated service levels and equalization of per channel charges

- **Pierce County, Washington**

Customers with increase	2.4%	Average Increase	\$0.34
Customers with decrease	97.6%	Average Decrease	(\$2.96)

- Elimination of Additional Outlet charges and changes in equipment charges

- **Nashville, Tennessee**

- 99.5% of customers will see a decrease (\$2.88)

- **Pleasanton, California**

Customers with increase	8.8%	Average Increase	\$1.44
Customers with decrease	91.2%	Average Decrease	(\$3.85)

- Elimination of Additional Outlet charge, equalization of per channel charges, changes in equipment charges

- **Marin, California**

Customers with increase	37.1%	Average Increase	\$0.76
Customers with decrease	62.9%	Average Decrease	(\$4.11)

- Elimination of Additional Outlet charge and reallocation of equipment charges from premium programming packages to regulated pricing levels

- **Dayton, Ohio**

Customers with increase	2.3%	Average Increase	\$2.58
Customers with decrease	97.7%	Average Decrease	(\$1.59)

- Equalization of per channel charges

FCC MASS MEDIA BUREAU

- **Salem, Oregon**

Customers with increase	3.3%	Average Increase	\$1.39
Customers with decrease	96.7%	Average Decrease	(\$3.18)

- Equalization of per channel charges

- **Pittsburg, California**

Customers with increase	34.3%	Average Increase	\$1.27
Customers with decrease	65.7%	Average Decrease	(\$3.95)

- Addition of newly activated channels to regulated service levels and elimination of Additional Outlet charge

- **Napa, California**

Customers with increase	48.9%	Average Increase	\$1.48
Customers with decrease	51.1%	Average Decrease	(\$4.20)

- Addition of newly activated channels to regulated service levels and equipment charges from premium programming packages to regulated pricing levels

We do not believe that these results are inconsistent with either the terms or the spirit of the Cable Act of 1992.

based gang blamed for most of the smuggling of illegal Chinese aliens into the United States has been crippled by a series of recent arrests in New York and Hong Kong, authorities said yesterday.

Federal prosecutors issued detailed indictments charging the alleged leader and 15 members of the Fuk Ching gang with a list of crimes including murder, kidnaping, extortion and smuggling. ■

house.

But that all changed July 20 when he went into the woods north-east of Pittsburgh to cut timber for the house. As he was collecting logs, an oak tree fell on his leg and smashed two bones.

Trapped and thinking he would bleed to death, the 37-year-old outdoorsman made a tourniquet from a chainsaw cord and used a pocket-knife to sever his leg below the

Prosthetics and Research Center, helped Wyman fit into the \$15,000 artificial limb, which was donated by the center.

Sabolich said Wyman should be completely adapted to his limb in three to four months.

Wyman credits his family and a belief in God with helping through the ordeal. "My family is my inner strength," he said. ■
